CAYOTE'S BLOODY RAID.

A Terrible Battle With Eighty Bandits at Salinas, Mexico.

led by El Cayote, the Notorious Bandit, Ten Bandits and a Number of Police Killed—The Fire Fugue Still Operating at Cleveland.

MONTREY, Mex., Oct. 6.—[Later information from Salinas City, the scene of Thursday's bloody outrage, confirms the first report that the attack was organized and led by the notorious bandit, El Cayote. (The Monday night El Cayote made his escape from jail at Nueva Laredo, on the Rio Grande. It is believed he bribed his jailers to allow him to escape, and immediately fled to the mountains and set about gathering his old band of outlaws together. El Cayote had solemnly sworn to take the life of Alcala Sautas for the part the latter took in causing his arrest for the El Estero train robbery, in which Pablo Quintana, the Mayor of Nueva Laredo, was also implicated, and afterward impeached and removed from office.

At Ramos, some twenty miles from Salinas, El Cayote marshaled his band of eighty men, from which point they started into Salinas.

About 3 o'clock Thursday afternoon, when the Alcala and other municipal officers had returned from their daily sista, a small band of fifty men was notified about the plaza, in the neighborhood of the Prefecture. The appearance of a mounted squad, with El Cayote at their head, was the signal of attack. Rodriguez, the Chief of Police, with half a dozen assistants, rushed to the Prefecture, and closed the doors on the excited mob. A full-scale continued until after dark, when the Alcala and other municipal officers, appearing, dragged the lifeless body of Alcala Sautas, while another bandit threw Rodriguez's body into the middle of the crowd. All the stores were looted, and the mob then turned on the break and the doors burst.

The exact number killed and wounded is not known, but it is believed that the bandits carried their dead and wounded away with them. The citizens claim to have counselled ten dead bandits about the street, the result of the terrible fire from the windows of the Prefecture with repeating rifles. Five policemen were mortally wounded, and two were severely wounded.

The municipal buildings were sacked and everything of value carried away. No effort was made by the citizens to arrest the bandits.

Cayote arranged his men on the plain after the attack, stating that they would now go forth and wage the struggle he had sworn to. He declared he would kill the authorities of Palo Blanco and Bustamante, and then see the mountains. Toward midnight, after including in a disorganized raid, El Cayote, with his band, numbering at least eighty well-armed men, took their dead and started westward in a disorganized raid. A sanguinary and sudden attack are expected to occur within a day or two at several points. The federal authorities are about to send troops.

Fire-Bugs.

CLEVELAND, O., Oct. 6.—[The fire-bugs along their head-bands. Alcala Sautas, a clerk in Long street, a narrow thoroughfare in the rear of Superior street, a fire started in a row of storage buildings filled with barrels, boxes and straw. The place was admirably chosen for the starting point for a destructive conflagration, and had the fire not been speedily discovered, much would have been the result.

A few moments afterward fire was discovered in the storage room on the fourth floor of the Lester building, an apartment building visited. The flames were extinguished by the employees. The scene disclosed a deliberate attempt to burn the establishment.

The other fire was in the printing house of Short & Forman. It is possible that this was accidental.

The local Board of Undertakers have offered \$500 and the National Board \$1,000 reward for the arrest and conviction of the fire-bugs. No reward has been offered by the city authorities, and there is adverse comment on the fact. Some of the Eastern companies threaten to withdraw their agencies if no active measures are not taken to protect property.

WASHINGTON.

The Attempt to Suppress Favoritism in the Navy.

WASHINGTON, Oct. 6.—The action of Secretary Chandler in designating an advisory board to aid him in selecting for detail officers of the navy, instead of leaving the matter to the discretion of the Chief of the Bureau of Navigation, has been the absorbing topic of discussion at the Navy Department since the order was issued. It is generally regarded as the first step toward abolishing the absurd system of patronage, with the conflicting orders, which has in the past been the bane of the navy. Scarcely an officer devoid of fair play has a word to say against Secretary Chandler's action for the latest action. It is generally believed that the new regime will result in the abolition of favoritism in promotion and detail for duty, which has on some occasions been charged against them in central. That the bureau system is a drawback to efficient service there can be no doubt, as the line of demarcation between the duties of the different bureau chiefs is so indefinite as to bring about conflicting orders. An instance of the kind was cited by an officer who has just returned from a long cruise, which is an excellent argument in favor of an advisory board. The Engineers in Spain, who control the amount of coal which shall be used. The Chief of this bureau says to the commander of a vessel about to sail, "You shall take on board 50 tons of coal for this cruise." Then follow the orders from the Bureau of Equipment and Recruiting. The Chief of this bureau says to the same commander: "You shall not burn more than 40 tons of coal on this voyage." Here are two orders from two bureaus. You cannot tell the Chief of the Bureau of Navigation orders the Commander to sail for Port Blank and to make the trip in three weeks. The amount of coal required to obey this last order within the specified time is 600 tons, yet the com-

mander is allowed to take only 500 and to burn only 400 tons. It is really because in this instance the three orders conflict to such an extent as to destroy the power of the commander to comply with his latest order, and this is only one of many cases in which the eight different bureaus of the Navy Department fail to harmonize.

VITRIOL THROWING.

A Philadelphia Girl's Attempt to Win Back Her Lover.

PHILADELPHIA, Pa., Oct. 6.—Anne Van Reld, a young woman about twenty-two years of age, was held in \$1,000 bail by Magistrate Lukens to-day for a further hearing, charged with assault on Henry Myers. The latter is a member of the liquor firm of A. & H. Myers, on Third street near Race, and travels for the firm. The assault occurred last Friday night, at Eighth and Spring Garden streets, where Myers alleges that Miss Van Reld approached him, and, without warning, threw the contents of a bottle of vitriol over him. He claims to have been badly burned, and unable to get to his feet. The girl's story is somewhat different. She states that for six years past Myers has been paying court to her. A short time ago they had a quarrel, and she left him. At that time on the other saw her near heard from her. She learned, however, that he was shortly to marry a girl living in the upper part of the city. This excited her jealousy, and she says she consulted a fortune teller, who advised she had forgotten, in order to learn how to regain his love. After hearing his story, the fortune teller gave her the vitriol, the nature of which the girl was ignorant, and told her that she would get him back on his life. She did love would return, and he would instantly become her faithful and constant lover again. "I took it home," she continued, "and I thought of it all the time, and sent him a note asking him to meet me at Eighth street and Fairmount avenue on Friday night. When I got there I found him waiting for me. We walked down the street together. I endeavored to win back his affections but without success, and at Spring Garden street he turned and fled. I had no face. I had no idea what it was, or I would not have done it."

BLOWN TO ATOMS.

A Terrible Explosion in a Powder Cap Factory.

CINCINNATI, Oct. 6.—About 8 Saturday morning a shocking and fatal accident occurred in a powder cap factory. John A. Johnson & Sons, on Court street, Mt. Adams block of Ellen Park. Here, thousands of paper caps used on toy pistols are manufactured daily by the twenty-five men there employed. The material used is a fulminating compound, the ingredients of which are a patent secret. It is necessary that the ingredients should be kept moist to prevent an explosion, and the workmen are in constant danger of being blown to atoms at any moment by a small particle drying on the bowl.

This morning a mixer named James Goodwin, aged twenty-five, was working in the West Court street, was to work in the mixing room. He neglected to moisten a small quantity of the compound which remained in the bowl from yesterday, and when he started to pound it a terrific explosion ensued, which blew the shovels to pieces in which the mixing room is located and which the explosion had blown to atoms. Goodwin was extracted from the debris in a terrible plight. Unconsciousness failed to come to his relief, and his agony was unendurable to witness. His whole body was one blackened mass. His eyes had been burned out. The flesh hung in shreds from his face, and even his nose was blown from his face. Patrol No. 3 removed the dying man to the City Hospital, where death relieved his sufferings at 9:30.

MISS CARPENTER HEARD FROM.

Evidence That She Sailed in the Bohemia and Drowned Herself.

BROOKLYN, Oct. 6.—Information has just been received by Carpenter's father, the missing Sarah C. Carpenter, in the form of a telegram from a Cuban steamship off Liverpool, stating that a young lady answering the description of the missing girl had sailed on the Bohemia as Mrs. Brown Blake, drowned herself on the evening of the second day on the left bank of the river, in a scow, which contained two letters, one addressed to Mrs. A. F. Carpenter and the other to Miss Constance, a friend of Sarah's. No other remains in the hands of the family that the drowned Mrs. Blake was Miss Carpenter.

RECEIVED ON TRIAL FOR OUTRAGE.

ATLANTA, Mass., Oct. 6.—The trial of F. B. Sleeper, of Gardner, for a felonious assault alleged to have been committed upon Mrs. Ellen Holt, was begun in the District Court at Gardner Friday. The testimony of Mrs. Holt is to the effect that on the afternoon of June 25, 1882, Rev. Mr. Sleeper, her pastor, called upon her during his visit with her, committed an outrage upon her. The Government put on only two witnesses yesterday. The defense have had a large number who claimed that Mrs. Holt's reputation for veracity is bad. The case continues.

Death of a Prominent Citizen.

SCHENECTADY, N. Y., Oct. 6.—Hon. John C. Ellis, of the Schenectady Locomotive Works, died suddenly Saturday morning on his farm near here. He represented Schenectady County in the Assembly of 1876, and was a heavy stockholder and expert in the locomotive works in which his brother, Charles O. Edwards and William Ellis, of New York, are the principal stockholders.

A Fated Innocent Victim.

DETROIT, Oct. 6.—The innocent victim of a fire, which broke out last night, was a young man named Keoper East and his assistant, who were in the building when it was removed in safety. The structure was one leased by the county for temporary use, pending the rebuilding of the one burned a year ago.

Story is Recovering.

DETROIT, Oct. 6.—Judge Chipman, of this city, has received a letter from Mrs. Wilbur F. Noyes, Chicago, who is the wife of the husband is slowly but surely recovering from his affliction. She has strong hopes of his regaining the full vigor of his mental powers.

SAD CASE OF DROWNING.

Four Deaths the Result of Too Much Bad Whisky.

Particulars of the Late Lynching in Mississippi—Brown Sullivan's Narrow Escape—William Smith Mobbed—Laxity of Justice.

ST. LOUIS, Oct. 6.—In Monroe County Jonathan Hickman, a well-to-do farmer, living near Florida, was on his way home from town with a horse and buggy. Besides himself there were in the vehicle his daughter-in-law and her two children, aged seven and four years. He was partly intoxicated, about half way on his trip he came to Brushy Creek. It was swollen by recent rains almost to the proportions of a river and was running very swiftly. He was warned by the people that it would be unsafe to attempt to ford the creek, but he did not heed the precaution. He drove the horse and buggy into the water, and the whole outfit went down the stream. People living in the vicinity heard their cries and made efforts to rescue them, but arrived on the scene too late. The horse and buggy were taken from the water, and this morning Hickman's body was found near the ford. The other three are still beneath the waves.

Another case of drowning was that of Robert Gordon, whose home was in Alair County, New Mexico. He attempted yesterday to ford Spencer's Creek with a two-horse team. The current was too strong. The horse and buggy were taken from the ford and the buggy and one horse, still alive, were found on a sand bar two miles below the ford. Gordon and the other three have not yet been recovered.

The Lynchers.

NEW ORLEANS, Oct. 6.—The following lynches from Meville, Franklin County, Mississippi, where the jail was cleared out by lynchers last week.

The white man, Brown Sullivan, who was tried at Meville, on a charge of venue from Jefferson, was the Freeman was waylaid by Brown Sullivan and his father, Dan Sullivan, and shot down in a country road. Brown Sullivan was the first man called for by the mob, which lynched the four negroes in Meville on the night of September 30, and the fact that the Sheriff of Jefferson County was twenty-four hours in turning him over to the Franklin jail, was all that then saved his neck. Great indignation was shown by the turning over of this man to the hands of the lynchers, and the result of the trial shows that the want of confidence in the courts is well founded. On Monday night, in Adams County, Mississippi, but near the line of Franklin, where the wholesale lynching of four negroes took place last week, a mixed mob of whites and negroes, who were on their way to the Adams County Jail, when the mob overtook them, seized the prisoner, and hung him to a tree near the line of Adams County. He had been hanged some time ago, and his head was cut off and stuck on a pole in a pond close at hand.

A TRUSTED EMPLOYEE.

He Stole His Employer's Money and Starved His Family.

NEW YORK, Oct. 6.—William English, who for several years has been in the employ of Meyer Goldsmith, an extensive shipper of cattle to South America, was charged with the charge of embezzlement. English was a trusted employee of Goldsmith, and had charge of the drivers who went across the ocean to care for the cattle shipped to the steamer. He was in the habit of presenting bills for the wages and expenses of these men, and was supposed to pay for the same. The investigation came to Mr. Goldsmith's attention when he came to Mr. Goldsmith and claimed for their wages, claiming that they had been paid. He had not been paid, but he had drawn the money, but had appropriated it to his own use. An examination of the books showed that during the month of May, June and July he had embezzled \$1,140.50. He was arrested at No. 77 St. Mark's place. The officers found that his wife and four children were living there in abject poverty. The wife gave birth to a child Tuesday, and she and the children were actually suffering from want of food in the apartment, and the wife had not been able to get any work to purchase any. The officers were so touched by the deplorable condition in which they found the wife, that they procured a nurse for the woman from Barabara Home. A subscription was taken up among the members of the detective force, and a sum of \$20.00 was sent to Mrs. English, which she admitted that she had embezzled the money and let it at home. He was locked up at police headquarters.

UNITED STATES MEDIATION.

Minister Young's Efforts to Bring About Peace in China.

LONDON, Oct. 6.—The Times in its editorial columns seesight hopes of the success of Young's mediation in Chinese matters. It says a ready sympathy with Li Hung Chang showed he had more kindness of heart than diplomatic talent. If a season of pending difficulties were dependent on Young's first efforts France would need a war credit far in excess of 100,000 francs. France has demanded a maximum of 500,000 francs. The question of indemnity were the only one involved we might anticipate an early settlement or lasting peace. It is evident that Li Hung Chang really used the defendant work reported, China is thoroughly aroused by the treatment she received from the hands of the French.

WASHINGTON, Oct. 6.—Inquiry at the Department of State today failed to elicit either confirmation or denial of the dispatch in the London Times cable to America stating that the United States Minister, John Russell Young, had arrived at Tien Tsin, and acting

under instructions from Washington, had informed Li Hung Chang that the French Government had requested the mediation of the United States Government.

It has been learned, however, that Mr. Young received no such instructions from the State Department. He is only about twenty miles distant from Peking. While there he had audience with Li Hung Chang, but was not instructed to convey any request on the part of France for mediation.

WEALTHY BUT INSANE.

A Woman Arrested While Hitting Up the Residents of Irving Place.

NEW YORK, Oct. 6.—Pulling door knobs and running away without waiting for an answer struck Policeman John W. Smith as queer conduct for a lady, as he watched a nicely dressed woman in Irving Place early yesterday morning, and he arrested her. The woman said she was Mrs. Kate Caverno Fitch, and that she lived at 30 East Twenty-third street. She was the wife of the missing Miss Carpenter, of Brooklyn, as she answers the description of the latter almost exactly. Nothing could be learned about her friends. She asked to be taken to the Allen Hotel, but nothing was known about that Mrs. Fitch. At No. 30 East Twenty-third street Mrs. Fitch had a room where she had been living since she was married. She had been living there from October, 1883, until last July, when she went away with her daughter. ## GONE CRAZY FROM GRIEF

Caused by the Loss of Money in a Suspended Savings Bank.

Three Victims Detected Making Preparations for Self-Destruction After Having Starved and Otherwise Punished Themselves.

ERIC, Pa., Oct. 6.—The timely interference of the authorities Friday prevented a horrible tragedy, for which arrangements were being made by Mr. and Mrs. George Schrock and John Flick, all three of whom were driven insane through the wreck of the Erie County Savings Bank by its rasical manager.

Schrock, his wife and little children and their friend lived on Myrtle street, and had \$18, the savings of four years, deposited in the bank when it suspended. Their wives were heartily dined, and for weeks they hung around the bank doors, wringing their hands and cursing the cashier. Their minds gradually sunk under the strain, until it became evident to their neighbors that all three were mad.

A visit to the home Friday disclosed a terrible state of affairs. Under the impression that God was punishing them for sin, they were trying to expiate their imaginary crime by self-flagellation and fasting. The four children were found nearly dead from starvation. The baby was struggling to obtain some sustenance from breasts that were dry, while the adults were emaciated and passionately exhorting the Almighty to forgive them. The assistance offered was rendered as an interference with the will of God and neighbors were driven away.

Two officers found the man and woman digging a grave in the back yard, and fearing that something was wrong, broke in, they entered in time to prevent a horrible tragedy. They had decided to emulate the death of Christ. Schrock was to be the savior, Mrs. Schrock the Holy Mother, and Flick was to do the killing, which was to be followed by a realistic representation of Herod's slaughter of the children.

Dr. Gerner, Health Officer, reported these facts to Judge Galbraith, and the unfortunate people are now in custody awaiting the decision of the lunacy commissioners.

### REMARKABLE STORY.

Forty-Six Needles Taken From the Arms of a Woman.

LOCKPORT, N. Y., Oct. 6.—Mrs. Seely, living in the town of Sardonia, between the forks of the Cattaraugus and the foot of Lord Hill, some time since complained of pain in her arm. Dr. George N. Kingman, of Sardonia, discovered that there were needles in the muscles. He applied a poultice and a few days afterward took out several needles. This he has repeated. The other arm is similarly affected and likewise treated, with like result. At last accounts he had taken from the woman's arm forty-six needles, or pieces. All were broken, some having fine points, others were broken at both ends, resembling pieces of wire. The case is mysterious. The woman claims to be unaware of how or when the needles were introduced into her system.

### A WOMAN'S DARING

Saved the Lives of Three Men and the Loss of Property.

DENVER, Colo., Oct. 6.—What might have been a serious disaster in a mine was prevented yesterday within the corporate limits of Georgetown by the presence of mind and activity of a woman. Mrs. Rubado observed a blaze coming out of the drift of the Centennial Mine, and seeing that the flames were rushing into the mouth of the mine. Within the circle of the flames were some twenty pounds of giant powder, and four boxes of giant caps sufficient to obliterate the mouth of the mine. She poured the water on the explosives, and brought a sufficient quantity afterwards to check the flames. The boxes of explosives were badly charred, but no other damage was done. Three men were at work 200 feet inside and knew nothing of their danger until all was over.

### Instantly Killed.

CINCINNATI, Oct. 6.—John Peller, contractor, of 1017 Vine street, left his horse stalled unattended on Race street, south of Liberty with one trace loosened and the lines fastened to the single tree. A mail cart tripped over the animal, and he started down Race street, the one trace throwing the wagon to one side of the street. At Fifteenth street, where the Frickhoffer, twelve, was crossing the street in front of her home, 542 Race, when the horse dashed toward her. Before she could get out of the way the wagon lurched toward her, and striking her, threw her under the horse, and before she could be rescued, she was trampled to death. Peller was immediately arrested and held at Bremen street police station on a charge of manslaughter, under \$2,000 bond.

### A Doctor's Suicide.

MONTREAL, Oct. 6.—A sensation was caused here last night by an attempted suicide in the Jacques Carter Hotel. Mrs. Goddard, a wealthy American lady from Philadelphia, arrived in the city on Wednesday, September 24, being accompanied by her two children and Dr. Phillips, a young Philadelphia physician who acted as her medical attendant. Dr. Phillips had acted very strangely for the last few days, and last night attempted to take his life by drinking a large dose of tincture of digitalis. A doctor was called in, who administered antidotes, but the unfortunate man is in a critical condition, and it is not expected that he will recover.

### Four, and Perhaps Six, Murdered.

FULLERTON, N. H., Oct. 6.—Thirteen miles west of here Mr. and Mrs. Percival and his wife, and Hugh Meyer, all English people, were murdered Monday night or early Tuesday morning. Their bodies were discovered last night. The Percivals were shot and Meyer smothered. Percival was a well-to-do farmer. There is no clue to the murders. Two more men in the vicinity are being sought, and search is being made for their bodies on the supposition that they too have been murdered. Corporal Smith and a posse have gone to the farms.

A Deficiency of \$240,000.  
NEWARK, N. J., Oct. 6.—Expert accountants report a deficiency of \$240,000 in the accounts of the late John W. Stout, Treasurer of Newark, from 1881 to 1883. His bondsmen will be sued for the amount.

### Mutual Exchange.

MADRID, Oct. 6.—It is stated here that the United States Government is willing to reduce the duties on sugar and coffee from 20 to 10 per cent, if Cuba duties on cereal will be abolished.
